PROFIT WARNING

This announcement is made by the Company pursuant to Rule 13.09 of the Listing Rules and the Inside Information Provisions under Part XIVA of the SFO.

The Board wishes to inform the shareholders of the Company and potential investors that based on the preliminary assessment by the Board of the unaudited consolidated management accounts of the Group and the information currently available to the Board, the Group is expected to record a net loss of approximately HK$2.9 million to HK$4.3 million for the 2026 Interim, as compared to a net profit of approximately HK$1.5 million for the six months ended 30 June 2025, reflecting a reversal from profit to loss.

Shareholders of the Company and potential investors should exercise caution when dealing in the securities of the Company.

This announcement is made by Best Linking Group Holdings Limited (the "**Company**", together with its subsidiaries, the "**Group**") pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on the Main Board (the "**Listing Rules**") of The Stock Exchange of Hong Kong Limited and the Inside Information Provisions (as defined under the Listing Rules) under Part XIVA of the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong) (the "**SFO**").

The board (the "**Board**") of directors (the "**Directors**") of the Company wishes to inform the shareholders of the Company and potential investors that, based on a preliminary assessment of the unaudited consolidated management accounts of the Group for the the six months ended 30 June 2026 (the "**2026 Interim**") and other information currently available to the Board, the Group is expected to record a net loss of approximately HK$2.9 million to HK$4.3 million (the "**Net Loss**") for the 2026 Interim, as compared to a net profit of approximately HK$1.5 million for the six months ended 30 June 2025, reflecting a reversal from profit to loss.

The Board considers that the Net Loss was mainly attributable to the following factors:

(i) a 47.8% year-on-year decline in overall revenue. Amid macroeconomic uncertainties attributable to sustained geopolitical tensions and rising oil prices, consumer momentum in the end markets has weakened. As a result, customers have adopted a more cautious approach to ordering;

(ii) a decrease in gross profit margin was attributable to the change in product mix, marked by a decrease in the sales of slewing rings in ODM business (which has a higher profit margin), despite an increase in sales of slewing rings in OEM business (which has a lower profit margin); and

(iii) an increase in expenses on enhanced marketing activities during the 2026 Interim, including the participation of the Group's subsidiary in the largest construction and surveying trade fair in Japan to promote the OEM business. Given that the Group's current market share in Japan remains relatively modest, management believes the Japanese market presents significant opportunities for further growth and expansion.

The information contained in this announcement is based on the preliminary assessment of the unaudited financial information currently available to the Board, which has not been audited or reviewed by the auditors of the Company. The consolidated results of the Group for the 2026 Interim have not yet been finalised as at the date of this announcement, and the actual results of the Group for the 2026 Interim may differ from those set out in this announcement. It is expected that the announcement of the results for the 2026 Interim will be published in August 2026.

Shareholders of the Company and potential investors are advised to exercise caution when dealing in the shares of the Company.
